LEVEL 2 AWARD IN PRINCIPLES OF WORKPLACE RISK ASSESSMENT (RQF)

This accredited qualification is designed to introduce the principles of risk assessment. It covers why risk assessments are necessary, the legal requirements relating to them and simple processes for carrying them out.

It is suitable for delegates working in any environment who need to be more risk aware by raising their knowledge of risk in the workplace and the basic steps they can take to control it.

This course is a trainer-led course that is delivered over one day.

The course aims are:

- To give an understanding of the importance of risk assessment and current applicable legislation.
- To promote awareness and understanding of what constitutes a hazard.
- To promote understanding of the 5 steps of carrying out a risk assessment.
- To give an understanding of different control measures and how these might be implemented.

On completion of this course, delegates will:

- Understand the importance of risk assessment and current applicable legislation.
- Understand what constitutes a hazard.
- Understand the hierarchy of controls.
- Be able to carry out a risk assessment.

Please be advised that the classroom course has a minimum age requirement of 16.

It is recommended the delegate completes refresher training every 3 years.
